Traffic Incident Management (TIM) Responder Training

This will be a table top demonstration. TIM Consists of a planned and coordinated multidisciplinary process to detect, respond to and clear traffic incidents so that traffic flow may be restored as safely and quickly as possible.
Effective TIM:
- Improves the safety of emergency responders, crash victims and motorist
- Reduces the duration and impacts of traffic incidents

TIM Training is designed to establish the foundation for and promote consistent training of all responders to achieve the three objectives of the TIM National Unified Goal: Responder Safety, Safe, Quick Clearance, Prompt, Reliable, Interoperable Communications.
