

Charles Shill

Charles Shill 49 years old, married for 37 years with 3 children and one grandson. I have been a mechanic for as long as I can remember. My father told me I started taking stuff around the house apart about the time I started walking. Around age 6, I started putting things back together after I took them apart. I have been a truck and tractor trailer mechanic for over 35 years. I joined my local volunteer fire department in 1992 after one of my cars got burned up in the driveway. When they found out I was a truck mechanic, I was voted in about as fast as I could fill out the application. I helped build a couple of our trucks and repaired too many to count. In 2004, I left a major leasing company and was hired on as a firefighter. I worked my way up from firefighter to engineer and soon after the department mechanic left the department. I hold multiple certifications including ASE Master Truck Technician. I am currently working on obtaining my Emergency Vehicle Technician certification.
